GOING IT TOO HARD?

Overwork, worry, overeating and lack of exercise and sleep are responsible for much kidney trouble. If your back aches and the kidneys seem weak, call up and take Dr. Dean's Kidney Pills.

Z. E. Boson, Germer, St. Arain, N. Mex., says: "I put my back out of shape by doing too much bending over.

My kidneys were in bad shape at times and the kidney secretions were unnatural and caused annoyance. When I tried to bend over, sharp pains shot up and down my back and specks floated before my eyes, blurring my sight. I became dizzy and was in bad shape until I began using Dr. Dean's Kidney Pills. This medicine soon fixed me up in good shape and cured me of the trouble."

Saving for Service

WHEN the war began The Mountain States Telephone and Telegraph Company was ready to render instant service to the Government. It at once, on its own initiative, made the needs of the Government paramount, giving them precedence over general economic requirements, and adopted a policy of strict conservation of all its resources.

To meet all the wartime telephone needs of our territory the Mountain States System has restricted to war purposes new construction and the limited supply of material and labor, as far as possible without impairing the general service. Every bit of plant equipment has been utilized and new methods of handling traffic devised.

Each telephone user is an essential part of the system upon whose cooperation the conservation of its resources and the maintenance of good service depend.

THOMAS H. PAGE, Director
WILLIAM S. HART in "Shark Monroe"

They called him "Shark" and he looked it. This high raw-boned man of the sea, when his ship hove in sight, vermin trembled at the Mahogany saloon and dance-hall sought refuge in out-of-the-way places. But there was one who did not fear him,

a tiny bit of humanity that strode bravely up and slipped his bony jaw in defense of her brother. You have seen Hart in the Western Epics but "Shark Monroe" will give you a new line on him. He is the master of a sealing schooner whose reputation

is a byword along the Pacific coast, and as such he will give you as much entertainment as you have yet had in watching him with his shorts and spurs. "Shark Monroe" will be presented at The Lyceum Theatre, Saturday night, July 27th.
